

UK distances & speed

- We usually measure short distance in metres
- We usually measure longer distances in miles
- Speeds on land are usually given in miles/hour (m.p.h.)
- Speeds on water are usually given in knots (nautical miles/hour)

Your leader is planning a holiday

Ask your leader about their plans

- When? (date; ? weeks or days from now)
- How long for? (the duration)
- How? (method of travel)
- Length of the journey? (miles or hours)
- Where? (country, town, house/hotel/tent ...)
- Why?
- What? (activities planned, weather, food ...)

**Future
tense!**

Αγάλι-αγάλι γίνεται η αγουρίδα μέλι

“Slowly-slowly, the unripe grape
becomes sweet like honey”

... “slow and steady wins the race” ...

[*similar English proverb*]

Some things can't be rushed.

2 tongue-twisters for you

Ripe grapes and unripe
grapes

Granny grabs green great
grapes

Think about the proverb in your group

- Are you a patient person, or not?
- What do you find difficult to wait for?
- What things get better the longer you leave them?
- Do you wish you'd been more patient about something?
